Tankschutzbügel

Tank Protection Guards

BMW R 1200 GS

*"Please read in conjunction with the
factory instructions & illustrations
supplied!"*

**NB: If you feel that you do not have the necessary skills or
tools to fit this kit we recommend you consult your local dealer!
If you are unsure, please contact us!**

**1. When fitting spacers always measure them and ensure you are using the
right one in the right location!**

2. Also before fitting this guard, ensure the tank side covers are on.

“ Suggestion“

**When these side covers need to be removed (eg Annual Service).
Loosen the front upper U bolts and then remove the lower clamps (to
the engine bars) to allow the guard to swing forward. A 10mm
ratchet ring spanner is very useful here!**

The kit covers the following parts:

Pos	Qty	PN	Description
1	1	705.501 HB	Tank Guard
2	2	150.997	Alu frame-clamps Ø 25 alu
3	4	150.728	Fillsiterhead Screw M 6 x 45
4	4	150.799	Self-Locking Nut M 6
5	4	150.809	Washer Ø 6,4
6	4	150.893	Washer Ø 6,4 x 3 dick
7	2	150.998	U-Bolt Ø 18 x M 6

Important note:

A condition for the assembly is the presence of the Hepco & Becker engine guard .
502.918

Assembling instructions

Attachment above (fig. 1 and 3)

The 18 x M 6 U-Bolt goes around the tube of the original frame.
The washers are 6.4 x 3 thick.

Befestigung unten (Abb. 2)

The aluminum frame-clamps go around the tubes of the Hepco & Becker of engine guard. Before the final tightening of all screws / connections, align the tank protection guard (distance to the tank, even on the left and on the right).

As an addition, two auxiliary driving lights "**Micro Flooter**" **Art.-Nr. 700.922** can also be installed at the existing mounting plates on the tank guard. (they provide for) More light and security that comes from using well placed auxiliary lighting.

**Check all screw connections after the assembly for
tightness!**

**Please read and consider our attached service
information**
