Hauptständer / Centre Stand
BMW F650CS

*"Please read in conjunction with the
factory instructions & illustrations
supplied!"*

**NB: If you feel that you do not have the necessary skills or
tools to fit this kit we recommend you consult your local dealer!
If you are unsure, please contact us!**

Very honored customer, we are pleased about your purchase decision
You have acquired a good Hepco & Becker product!
Beside the well-known advantages of a centre stand (standing of the
chassis, ease of service smaller space when parked etc ...), this
product is characterized by its stability and by its ease of handling!

Putting the motorcycle up on our stand takes place with little energy
expenditure and almost exclusively via the employment of ones own
body weight!

When assembling your centre stand, please read and carefully consider
the following instructions. **Please check the illustration to
understand each part and its location!** We also recommend that
when fitting the spring set, one person stabilizes the motorcycle, whilst
the other fits.

Assembly instruction

Assembly of the adaptor piece:

Push the adaptor piece ② on the underside of the frame from the
front at the present stand mounts.

Now put the on flange head screws ⑦ together with Body Disks ⑨
from the rear by the supports of the stand mounts and the adaptor
piece. These are bolted on with the self locking nuts ⑧

Attachment of the centre stand:

Press the attack rubber ⑤ (bump stop) into its location at the centre stand ①

After placing the centre stand ① between the stand mounts, you then push the Axle ⑥ into the guidance (before greasing!).

(All aligned OK? Now remove and grease all pivot points with a good multi-purpose grease!)

The axle now is secured with the help of the U-disk ⑩ and the split pin ①① ("11")!

Attachment of the Spring

Hang the retainer ④ at the adapter. The spring set ③ is hung up on the front column by means of large screwdriver and determination pliers (or a good spring hook).

Now fully tighten the flange head screw firmly and then check the functionality of your new center stand.

We wish you a trouble-free riding season and great traveling
