Rear Carrier (top case mount)

HONDA CBR 900 RR to 99

***"Please read in conjunction with the
factory instructions & illustrations
supplied!"***

NB1:

**Please read in conjunction with the factory illustrations
supplied with the original (German) instructions!**

**NB2: If you feel that you do not have the necessary skills or
tools to fit this kit we recommend you consult your local dealer!
If you are unsure, please contact us!**

**NB3: When fitting any spacers always measure them and
ensure you are using the right one in the right location!**

**NB4: First assemble all components with bolts to finger tight to
ensure that parts are aligned before final tightening**

The kit covers the following parts:

2 adapter cross-beams (supports)

6 washers 8.4

2 hexagonal screws M 8 x 12

6 self-locking nuts/mothers M 6

1 retainer

1 rear carrier

10 washers 6.4

4 hexagonal screws M 6 x 18

2 hexagonal screws M 6 x 20

4 plastic caps M 6

Assembling instructions

The rear turn signals remain in the original position!

The two seat parts are dismantled. The plastic linings (cowls) on the
left and on the right (of the bike) are dismantled. Under the fixing
device of the pillion seat, the two latches of the retainer are installed.

Exchange the original screws with the hexagonal screws M 6 x 20
provided.

At the lateral holes of the retainer, the rear attaching brackets of the adapter cross-beams (tubular supports) are installed. Use the hexagonal screws M 8 x 12 for this. The front attaching brackets of the tubing adapters are installed at the frame under the rear attachments of the aluminum framework arms for the pillion foot pegs with the original screws. So that the framework arms at their front attachment points are correctly aligned, 2 washers are installed between as spacers in each case.

The original cowls and seat are re-installed. The rear carrier is installed at the latches of the adapter cross-beams with the hexagonal screws M 6 x 18. The screw heads are covered with the plastic caps.

Check all screw connections after the assembly for tightness!

Please consider our attached service information esp. pannier load carrying etc.
