

JUNIOR / JUNIOR FLASH 30

For many years, the undisputed sales champ – always comes in first in comparison tests.

Our „Junior“ case series
It doesn't matter which version or size you pick: This series of cases – conceived at target-design – is tailored to your needs. We offer Junior side cases with 30 or 40 liters of space. Robust and highly resilient through its double-wall construction, it forgives rough landings, protects its contents even during small jolts and is watertight. The case's side lid makes it optimal for loading. Two strong tension belts hold the content in place even when the lid is open.

The Junior 40 has space for a helmet.
