

A modern, contemporary design (by target-design) from an extremely robust combination of anodized aluminum plate and highly impact-resistant plastic molding. This merging of design and functionality matches the modern spirit of many motorcycle enthusiasts.

With its 1.5 mm thick anodized aluminum plate and tough plastic parts, this case absorbs impact and vibration with special ease. The anodized or plastic-coated aluminum effectively prevents unsightly aluminum wear. The Xplorer has a high-quality surface structure. The lid opens to a 90° angle! This case is guaranteed watertight.

Security kit for expeditions
On extreme expeditions, it makes sense to attach the case to its carrier to deter theft. For this, the security kit is the right option. A special bracket on the exterior hooks behind the luggage carrier.
