

This new soft bag has a lot in common with an oyster - hence its name. Compared to other soft bags, it is visually striking with its fresh, original design. It is made of robust, highly resistant EVA material, which gives the Royster bag its dimensional stability. The front is covered with abrasion-resistant 1200D polyester, which matches the surface finish in the existing HEPCO & BECKER collection. The back wall is coated with polyurethane. This improves soil resistance and makes cleaning easier. Their light weight makes them easy to handle and allows trouble-free carrying with a practical recessed handle. The C-Bow bag holder from HEPCO & BECKER allows theft-proof attachment to protect this attractive soft bag from sticky fingers.

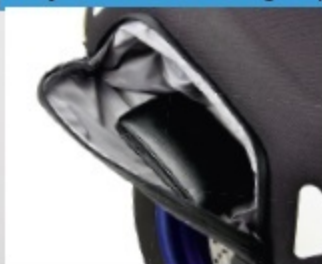

### Royster C-Bow Softbag

Item-no. 640620 00 01 black

Item-no. 640620 00 07 yellow

**Royster C-Bow Softbag** Capacity 22 Liters Weight: 1,5 kg Dimensions WxHxD: 45x25x25cm Load: 5 kg

#### Outside pocket

A practical outside pocket provides quick access to small travel accessories

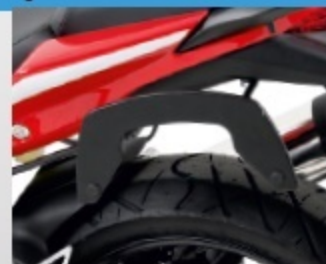

#### Watertight

An integrated polyester inner bag keeps the Royster absolutely watertight. Zippers available in yellow or black with 2-way zipper.

#### Integrated recessed grip/ lock

The C-Bow bag holder from Hepco&Becker allows theft-resistant mounting. The recessed grip improves transport of side bags.

#### For C-Bow bag holder

Necessary with the ROYSTER or STREET side bag. You can find the right holder for your model in the modellist or on the Internet at the „My Bike“ section on our website.
