

NEW

Now the Royster product family is complete! The unmistakable look of the Royster products is logically complemented in this bag. The modern rear bag is a visual highlight for any pillion seat. Alongside the focus on packing volume and function, this bag claims to be contemporary yet entirely innovative. The Royster rear bag offers two fixing methods: The bag can be mounted in a flash onto a model specific sport rack using the Lock it fixing, or conventionally on a pillion seat using the reliable 4-point strap fixing. Thanks to both models, the rear bag is the perfect luggage solution for lots of sporty motorbikes. Whether it's for a short trip or long journey, the Royster rear bag offers a generous amount of space to complement the Royster side bag and tank bag.

Also available in black colour

Royster Rearbag Capacity 27-32 Litres Weight: 1,8 kg Dimensions WxHxD: 42x38x29-33cm Load: 5 kg

Large volume, waterproof

An integrated inner sack made of polyester is guaranteed to be watertight. Also suitable for a helmet thanks to the increase in volume.

Lock it rear bag fixing included for sport racks

The Lock it version includes a locking unit and the Lock it rear bag holder for attachment to a sport rack.

Royster Rearbag with strap fixing

It can be individually fixed to the seat with the enclosed strap set.
